INDEX.

Abbot's Hipton, the fatal collision at, 189
Abdomen, wound of, and protrusion of intestine, 242; perforating wound of the, 243; a penetrating wound extending from back of thigh through ischio-rectal fossa into the, perforation of ileum, 311; stab of the, 694
Abdominal inflammation, on the local use of cold in, 309
——— tumour, on, 305
Aberdeen University, 748
Abscesses, painless opening of, 77
Absorption spectra, pathological, 92
Aconite, 186; poisoning by, 328; and aconitine, 656
Adams, Mr. W., on subcutaneous surgery, 427
Addison's disease, 131
Adenia, notes on a case of, 238
Admiralty, the, and naval medical officers, 841
Adulteration Act, the, 224; the first appeal under, 147; a fine point under, 409
Ague poison, marsh water a vehicle of, 831
——— quarter, 415
Albuminuria, muscular exertion as a cause of, 376; on the pathology and relations of, 531, 590, 627
Alcohol, in the treatment of disease, on the use of, 6, 54, 100, 122; physiological action of, 172; in unions, consumption of, 202; in fever, 377; consumption of, 713
Alexander, Dr. W., and Dr. A. M. S. Hamilton, on progressive muscular atrophy, 10, 44
——— prize, the, 720
Allbutt, Dr. T. C., on Dr. Broadbent's lectures on the pulse, 86
Allen and Hanburys, Messrs., phosphorus pills, 763
———, Mr. M., notes on a case of adenia, 238
Alum, tannin, and oxide of zinc in sticks, 842
Amberley, Viscount, death of, 105
American lunatic asylums, 254, 263, 418, 455, 520, 566, 701, 801, 810, 918
——— Medical Societies, Transactions of various (review), 428
Amyloid degeneration of tissues studied with the aid of new colouring agents, 145
Anæsthesia, modern, the history of, 287; local, new mode of obtaining, 590; new apparatus for producing, 638
Anæsthetics, 686
Analysts, public, 195, 404; Proceedings of the Society of (review), 541
ANALYTICAL RECORDS. — Turtle jelly, 444 — Essence of beef, mutton, veal, and chicken, ib. —Granular effervescing sulphate of quinetum, ib.—Granular effervescing citrate of iron and quinetum, ib.—Hunyadi Janos bitterwasserquelle, ib. — Emulsified cod-liver oil, ib. — Emulsified cod-liver oil with hypophosphite of lime, ib.—French soups, 721 — Vaseline (gelatum petroleum), ib.—Vin de Baudon, antimonio phosphaté, 722 — Newman's improved pure extract of malt, ib.—Condy's ozonised sea salt, ib.—Tamnus natural mineral water, 926—Vesicating colloid, ib.—Syrupus cinchonæ alcoholicus, ib.—Terebene soap, ib.—Eucalyptus oil soap, ib.—Syrup of hydriodate of quinine, ib.—Gelatine lamels, 927
Anatomy, dearth of subjects for, 786
Andral, M., obituary notice of, 300
Aneurism, 8; of the aorta, 15; of the heart, 53; of the common femoral artery, 80; of the aorta, giving rise to general dropsy, 91; popliteal, failure of compression, ligature of femoral artery, recovery, 210; a remarkable case of, 223; two cases of, 256; aortic, treatment of, by galvano-puncture, 291; aortic, with increased secretion of urine, 308; of the arch of the aorta spontaneously cured, 425; aortic, distal ligature of the left carotid for, 430; double femoral, treated with success by rapid compression, return of one aneurism, ligature of the external iliac unsuccessful, cure by laying open the sac, 597; femoral, ligature of superficial femoral artery, rupture, gangrene and amputation, death, 669; cerebral, 740; case of ilio-femoral, treated successfully by ligature (with carbolised catgut) of the external iliac artery, 775
Aneurisms, on a recent case of ligature of the external iliac artery by an antiseptic material, for the cure of an unusual number of, 310
Animal and vegetable life, the boundary line between, 219
Animals, cruelty to, 157
Ankle-joint, resection of the, 37
Annandale, Mr. T., case of dorsal dislocation of the head of the femur, with eversion of the limb, 208; on a case of double femoral aneurism treated with success by rapid compression, return of one aneurism, ligature of the external iliac unsuccessful, cure by laying open the sac, 597; on the Pathology and Operative Treatment of Hip Disease (review), 608
Anstie, Dr., the late, 143
Antimony, poisoning by, 839
Antiseptic surgery, 123, 165
Anti-vaccinationists, 408
Anus, imperforate, in a child thirty-three days old, operation, recovery, 312
Aorta, disease of the, 740
Aortic valves, congenital malformation of the, 53
Apoplexy, ingravescent, 886
Apothecaries' Hall, pass-lists of, 34, 74, 154, 194, 228, 265, 300, 334, 374, 408, 448, 462, 515, 554, 587, 622, 654, 691, 726, 799, 837, 878, 941
Aquapuncture, on, 344
Appendix vermiformis, supplementary, 841
Apples and pork, results of eating, 36
Arbuckle, Dr. W., obituary notice of, 586
Army, health of the, 28, 718, 753; medical examination for the, 116; estimates, 227; medical reports, 18, 224, 672; medical school, 546; warrant, 647, 677, 687, 791; blue-book, the new, 719; heart disease in the, 639
——— medical service, 157, 218, 258, 265, 485, 695; short-service scheme, 287, 296, 326, 332, 366, 411
——— Sanitary Commission, 33
——— surgeons, the forage allowance of, 35
Arnott, Mr. H., 475
Arthritis, acute, and necrosis of the entire shaft of the tibia in an infant, 889
Artisans' Dwellings Act, 644, 682
Ashantee campaign, naval reminiscences of the, 62
Association of Surgeons practising Dental Surgery, 446, 649, 922
Astragalus, reduction of partial dislocation of the, of long standing, 314
Athetosis and post-hemiplegic disorders of movement, 709
Atkinson, Dr. F. P., a case of rheumatic fever treated by salicin, 655
Atmospheric germs, 155, 179
Atoms of matter, ultimate size of, 579
Auditory meatus, external, on closure of the, 126
Aural polypi, cases of, 564
Austin, Mr. J. A., is icterus coincident with rheumatism? 517
Australia, the fatal case of lithotomy in, 648

Bacon's Essays (review), 779
Bacteria, 99
Bagshot, water-supply of, 335
Balfour, Dr. G. W., Clinical Lectures on Diseases of the Heart and Aorta (review), 675
Balham mystery, the, 719, 780, 934; medical history of the case, 755
Ballet-girls, the burning of, 146
Barking, sanitary condition of, 555
Barnes, Dr. R., the College of Surgeons and the Midwifery Board, 476
Barnsley, sanitary condition of, 443
Barr, Dr. W. A., district nursing, 657
Barton, Mr. H., death of, 647
Barwell, Mr. R., singular condition of the knee-joint after excision, 651; a shoe for the treatment of clubfoot, 917
Bastian, Dr. H. C., on Paralysis from Brain Disease in its Common Forms (review), 17; remarks on a new attempt to establish the truth of the germ theory, 206, 294
Bateman, Mr. H., ergot in prolapsus uteri, 761
Bath, typhoid at, 475; United Hospital, 365
Bath, death in the, 62
Baudoy, Dr. J. R., Lectures on Diseases of the Nervous System (review), 248
Beale, Mr. J. S., the late, 196; the family of the late, 37, 451
Beaunis, Dr. H., Nouveaux Elémens de Physiologie Humaine (review), 94
Beck, Dr. J. E., treatment of acute orchitis, 695
Begbie, Dr. J. W., 371; obituary notice of, 373; the late, 369
Béhier, Professor, the late, 728, 831
Belfast, vital statistics of, 328
Bell, Mr. C. E., jaundice after measles, 231
———, Mr. H. B., on puncture of the testis in acute orchitis, 153
Belladonna, poisoning by, treated by jaborandi, 346
Bentley and Trimen's Medicinal Plants (review), 174
Bequest, a curious, 443
Bequests &c. to hospitals, 114, 220, 334, 516, 598, 664, 743
Berkshire Hospital, 590
Berlin, sanitary state of, 107; the Forensic Institute of, 730
Berry, Mr. W., notes of two cases of prolapse of the umbilical cord, in which the postural method was employed, 385
Bethlem and St. Luke's Hospitals, report on, 685
Bethnal-green, the sanitary condition of, 903
Bianchi, Dr. A., death of, 938
Biliary acids, the action of the salts of the, 931
Billroth, Professor, and the Vienna students, 103
Bills of mortality, further extension of the, 103
Birkenhead, health of, 721
BIRMINGHAM. — Drainage scheme, 237 — The Borough Hospital, ib.—The Children's Hospital, ib.—The Lying-in Charity, ib.—The Medical Institute, 238—Water-supply, 372—Public mortuaries, 372, 620, 723—General Hospital, ib.—Clinical education of women, ib.—Thoracic aneurism, ib.—Empyema, ib.—Need of the Artisans' Dwellings Act, 620—Hospital Saturday, ib.—Improvement scheme, 723—Dr. B. Davies, the portrait of, ib.—New scientific society, 724—Female medical students, ib.—Drainage districts, ib.—Lodging-houses in Walsall, ib.—Foreign body in the œsophagus, fatal case of, ib.
Birmingham, female medical students in, 142; Hospital Saturday at, 472; the improvement scheme, 442, 547; the free system at, 599; public mortuaries for, 683; another park for, 905; Medical Benevolent Society of, 678; and Midland Association of Medical Officers of Health, 581

Lead-factory hands, the pathology of, 327

LEADING ARTICLES.

The coming year, 19—Abdominal section for intussusception of the intestine, ib.—Royal College of Surgeons, 21—Darwinism in idea, 22—The etiology of cirrhosis of the liver, 23—The College of Physicians of London and the question of titles, 57, 216—The health of Rome, 58—The functions of the colon, 59—Pathological anatomy of the endemic diseases of marshy districts, 60—Medical degrees and the English universities, 96—The recent progress of chemistry, 97—The annual addresses at the Obstetrical Societies, 98, 179—Medical women and the College of Surgeons, 98—Bacteria, 99—Vivisection, 138—The prevention of Thames floods, ib.—Physiological physiology, 139—The sanitary aspects of school-ships and training-ships, 141—Professor Tyndall on putrefaction, 178—Prophylactic legislation for shipowners and sailors, 179—The spread of whooping-cough, 181—The pollution of rivers, 216—Dropsy in the fœtus, 218—The Army Medical Service, ib.—The forthcoming session, 250—The debate on syphilis at the Pathological Society, 251, 286, 436, 503, 542—The Registrar-General and unqualified practitioners, 252—Foot-and-mouth disease in man, 253—The Medical Act Amendment Bill, 286—The rumoured short-service scheme in the Army Medical Department, 287—Uncertified deaths in South London, 288—The vitiation of death certificates, 321—The cause of the coagulation of the blood, 323—The midwifery licence of the Royal College of Surgeons, 323, 433, 609—Noxious fumes from factories, 358—The etiology of rabies, 359—Relief of local taxation and local needs, 360—Scurvy, 361—Mr. Hardy's scheme, 395—The development of ova and the ovaries, 396—Medical women, 397—The Registrar-General's decennial report, 434—The British Medical Association and the profession at Brighton, 435—"Patent" and private medicines, 437—The fellowship examination of the Royal College of Surgeons, 469—The pathology of fever, ib.—Dr. Parkes, F.R.S., 471—The experimental study of disinfectants, 504—Faradisation of the cortex of the cerebrum, 505—The vacancies in the General Medical Council, 542—Quack medicines, 543—Competitive examination for the public services, 544—The new college scheme, 575—The new president of the College of Physicians, ib.—Mr. Simon's latest reports, 576—Royal titles versus public health,

577—The structure of the pons Varolii, ib.—Degrees in medicine at Cambridge and Oxford, 609—District nurses, 610—Dropsy in the fœtus, 611—The conjoint scheme for England, 641, 677—Lord Wenlock on the place of the officer of health in rural sanitary administration, 642—The General Medical Council, 642, 747, 780, 827, 870, 895—The therapeutics of acute rheumatism, 643—The new army medical warrant, 677—Medical education at Cambridge, 678—The standard purity of milk, 679—Special hospitals, 712—The election at the Royal College of Surgeons, 713—The consumption of alcohol, ib.—The water-supply of Hastings, 714—Dr. Buchanan on the late prevalence of enteric fever at Croydon, 747—The physiological treatment of insanity, 748—The case of Mr. Bravo, 780—Mr. John Simon, C.B., F.R.S., D.C.L., 782, 870—The Vivisection Bill, 784, 871, 930—The appointment of coroners, 785—Dr. Brown Séquard on the physiological pathology of the brain, 828—Medicine in relation to the civil administration of the state, 829—The histology of the evolution of the mamma, 896—The physical condition of seamen, 897—A specialist on specialism, 930—The action of the salts of the biliary acids, 931

Lead-line on the gums, 709
Lead-poisoning, 894
Leavesden, Caterham, and Hampstead Asylums, report on, 477

LECTURES, ETC.

BRADLEY, Mr. S. M.:
A Clinical Lecture on Septicæmia, 769

BROWN-SÉQUARD, Dr. C. E.:
Lecture on the Appearance of Paralysis on the Side of a Lesion in the Brain, 2, 79, 159

BRYANT, Mr. T.:
Clinical Lecture on the Diagnostic Value of the Ilio-femoral Triangle in Cases of Injury of the Hip-joint, more particularly of Impacted Fracture. Delivered Dec. 16th, at Guy's Hospital, 119

CARTER, Mr. R. B.:
Lectures on Questions in Ophthalmic Surgery. Delivered at the Royal College of Surgeons.
Lecture I.—Ophthalmology in its relation to General Surgery, 881, 913

DICKINSON, Dr. W. H.:
Croonian Lectures on the Pathology and Relations of Albuminuria.
Lecture I., 521
Lecture II., 590
Lecture III., 627

FOX, Dr. T.:
Clinical Lecture on Morphœa ("Addison's Keloid"). Delivered at University College Hospital, 843

HILL, Mr. R.:
A Clinical Lecture on the Treatment of Incipient Stricture by Otis's Operation. Delivered at University College Hospital, March 16th, 1876, 522
Clinical Lecture on Tertiary Syphilis of the Soft Palate and Pharynx. Delivered at University College Hospital, 593

HUTCHINSON, Mr. J.:
Notes on Syphilis. Being an Address delivered before the Pathological Society, introductory to a Discussion on that subject, 201

JOHNSON, Dr. G.:
Lectures on some Nervous Disorders that result from Overwork and Mental Anxiety.
Lecture IV., 233, 271
A Clinical Lecture on Triple Pericardial Friction-sound, and on Reduplication of the First Sound of the Heart, 697

MACKEY, Dr. E.:
Clinical Lecture (Abstract of a) on the Diagnosis of certain Skin Eruptions. Delivered at the Queen's Hospital, Birmingham, 120

MACNAMARA, Mr. C.:
Clinical Lecture on Osteo-myelitis and Acute Periostitis, 805

MAUNDER, Mr. C. F.:
Clinical Lecture on Abdominal Tumour. Delivered at the London Hospital, 305
Clinical Lecture on Gelatinous Disease of Synovial Membrane (New Operation), 559

PETTIGREW, Dr. J. B.:
Lecture on Man in his Anatomical, Physical, and Physiological Aspects. Introductory to a Course of Lectures on the Institutes of Medicine (Physiology), 4, 41

POLLOCK, Dr. J. E.:
Clinical Demonstrations of Phthisis. Delivered at the Hospital for Consumption and Diseases of the Chest, Brompton.
Lecture I., 413
Lecture II., 467

RAMSKILL, Dr. J. S.:
Clinical Lecture on a Case of Impacted Gall-stone, and Jaundice continuously for two years and a half. Delivered at the London Hospital, 379

SANDERSON, Dr. J. B.:
Address on Appliances used in Biological Investigation. Delivered at the Opening of the Biological Conferences in connexion with the Loan Exhibition of Scientific Instruments, South Kensington, 765

SMITH, Mr. T.:
Clinical Lectures on Lister's Treatment of Wounds and Abscesses by the Antiseptic Method.
Lecture I., 453

SOUTHEY, Dr. R.:
Lectures on Individual Hygiene. Delivered at St. Bartholomew's Hospital.
Lecture I., 161
Lecture II., 234
Lecture III., 272
Lecture IV., 339

STURGES, Dr. O.:
Clinical Lecture on Whooping-cough, 659, 731

THOMPSON, Sir H.:
Clinical Lecture (Part of a) on Internal Urethrotomy, and on the Instruments employed for performing it. Delivered at University College Hospital on Nov. 29th, 1875, 1
Clinical Lecture (Part of a) on some Important Points in connexion with Lithotrity. Delivered at University College Hospital on Dec. 6th, 1875, 39

WATERS, Dr. A. T. H.:
Clinical Lecture on Pleuritic Effusion. Delivered at the Liverpool Royal Infirmary, 199

WATSON, Dr. E.:
Clinical Lecture on a Case of Aneurism of the Common Femoral Artery, 80

Leftwich, Dr. E. W., the formation of laminated clot, 420
Legg, Dr. J. W., movable kidneys, 215
Leicester, the causes of infantile diarrhœa in, 183
Lepra, Norwegian, 693
Leprosy, histology of, 671
Lethebyt, Dr. H., death of, 598
Leukæmia, 349
Lewis, Dr. J. P., treatment of acute orchitis, 337
———, Mr. L., the coca-leaf, 520
Lichen ruber, 604
Ligature, on the use of the antiseptic catgut, 239, 278
Light, 364
Lime-juice and lemon-juice, 368
Limrick, Mr. W. S., Waterloo township, 338
Lincoln, sudden death at, 326
Lingual psoriasis and epithelioma, 720
Linhart's chisel, 568
Lip, congenital deformity of the, 13
Liq. ammoniæ, symptoms observed in a case of poisoning by, 280
Lister, Mr. J., 581; the antiseptic method of, 453
Lithotomy, a bladder eleven years after, 605; median, record of cases of stone in the bladder treated by, 422, 553; and lithotrity, comparative results of, 465
Liver, abscess of the, opening into the pleura and bronchi, 107; displacement of the, 224
Liverpool, water-supply of, 406
Living in one room, 231
Llandudno, meteorology of, 188
Lloyd, Dr. E., treatment of acute orchitis, 605
———, Dr. W. H., successful case of skin-grafting after amputation, 209
Local Government Board, deputation to the president of the, 905; Ireland, 144
——— self-government, compulsory, 325
———taxation and local needs, the relief of, 360
Lockie, Dr. S., lunatics in Scotch asylums: English certificates not valid, 591
Lodging-houses, registered, 400; common, report on the condition of, 501, 550
London, the suburbs of, 362, 506; water-supply of, 104, 114, 510
——— Fever Hospital, 293
——— Hospital, 367, 402; scholarships, 880, 942
——— University, 758, 789; female graduates at the, 147; and the admission of women to degrees, 874; election to senate of the, 904; and the conjoint scheme, 928, 938
Longevity, in England, 312; of medical men, 65
Lorain, Prof., the late, 647
Lubbock, Sir J., on school education, 101
Lucas, Mr. R. C., on aquapuncture, 344
———, Mr. T. P., four at a birth, 116
Lunacy Act, painful case under the, 476
———, and the demand for lunatic asylums 257; in Ireland, 29
Lunatic, assault by a, 186; contents of the stomach of a deceased, 188
——— asylums, reports on, 26, 66, 135, 329, 477, 685, 891, 924
Lunatics, at large, 937; in Scotch asylums, 591, 625
Lung elasticity, on some effects of, in health and disease, 424, 485
Lymphadenoma, 740
Lyon Jones bequest, the, 259
Lyons, treatment of variola in, 626
Lyttelton, Lord, 646

M'Ardle, Mr., and the health officials, 840
Macclesfield, hospital provision for infectious diseases in, 753
McConnell, Dr. J. F. P., on the "distoma conjunctum" as a human entozoon, 343
M'Cosh, Dr. R. N., the case of poisoning at the Dundee Royal Infirmary, 116
McGill, Mr. A. F., on puncture of the testis for acute orchitis, 112; hydrophobia, 619
M'Grath, Mr. W. M., a caution, 728
Mackey, Dr. E., on variolous eruptions, 120
Mackintosh, Dr. D., a ruminating human being, 591
Maclachlan, Mr. A., a caution, 728
Maclagan, Dr. J. T., the germ theory, 295; the treatment of acute rheumatism by salicin, 342, 383, 545, 910
M'Laurin, Mr. W., infiltration of cellular tissue with air, 198
Maclean, Dr. W. C., the appeal of, 115
Macmillan, Dr. A., salicin in acute rheumatism, 729
Macnamara, Mr. C., on osteo-myelitis and acute periostitis, 805
Madman, an amateur, 518
Mahomed, Dr. F. A., observation on the circulation made on Mr. Weston during his late 500-mile walk, 432
Malarial poisoning, pigmentary deposits in the brain from, 221
Malingering, 28
Malta, fever at, 28; sanitation in, 328
Malvern Rural Hospital, 767
Mamma, histology of the evolution of the, 896
Man in his anatomical, physical, and physiological aspects, 4, 41
Manchester and Salford, small-pox at, 259, 549; Provident Dispensaries Association, 720
Marshall, Mr. J., the British Medical Association, 406
Martin, Mr. E., medicated ice in scarlatina, 77
Martyr, a self-made, 410
Mason, Mr. F., manifestations of syphilis in the teeth, 723
———, Mr. S. B., chronic urticaria, 558
Materia medica and therapeutics, 804
Materialism (review), 18
Maunder, Mr. C. F., the antiseptic method of ligature of arteries in their continuity with catgut, 239; on abdominal tumour, 305; on gastro-enterotomy, 425; median lithotomy, 553; on gelatinous disease of synovial membrane, 559; an alternative operation for vesico-vaginal fistula, 883
Measles, how to minimise danger of infection from, 157
Meat, diseased, 598, 793
Meatus, urinary, on the results of congenitally small, in males and females, 169
Medical Act Amendment Bill, 286
——— Aid Associations, 449
——— assistants, unqualified, 803, 911; and recovery of fees, 24; and uncertified causes of death, 754
——— men, as public informers, 589; the proportion of, to population, 719; compulsory information from, 719
——— officers of health and infectious disease, 181; and vaccination, 194; difficulties of, 684
——— prizes, 303
——— relief as a legal question, 833, 879, 910

MEDICAL SOCIETIES.

ASSOCIATION OF SURGEONS PRACTISING DENTAL SURGERY.—Discussion on the manifestation of syphilis in the teeth, 674, 922
CLINICAL SOCIETY.—Pigmentation of the skin, 131—Thrombosis of the cavernous sinuses, 132—Interesting case of congenital tumour, ib.—New method of operating for cataract, 213—Novel method of treating obstinate cases of symblepharon, ib.—Gunshot-wound of the upper arm, dividing the brachial artery and median nerve, ib.—Embolism of the right posterior cerebral artery, ib.—Acute œdema of the larynx, 314—Reduction of partial dislocation of the astragalus of long-standing, ib.—Cancer of the breast, ib.—Purpura rheumatica, 315—Morphœa, 348—Bulbar paralysis, ib.—Leukæmia, 349—Menière's disease, 350—Gastro-enterotomy, 425—Aneurism of the arch of the aorta, spontaneously cured, 426—Distal ligature of the left carotid artery for aortic aneurism, ib.—Linhart's chisel, 568—Headache double optic neuritis, and blindness, 569—Cleft palate, ib.—Hydatid tumour removed from the orbit, 570—Glaucoma treated by subconjunctival sclerotomy, 673—Glycosuria following cerebro-spinal concussion, ib.—Patent ductus arteriosus, 674—On subcutaneous osteotomy, 742—Intestinal concretion passed per anum, 743—Singular condition of the knee-joint after excision, 851—Acute arthritis of the knee-

joint, ib.—Cerebral tumour implicating the corpora quadrigemina, 888—Diphtheritic paralysis simulating extensive lung disease, ib.—Acute arthritis of the knee-joint and necrosis of the entire shaft of the tibia in an infant, 889

MEDICAL SOCIETY OF LONDON.—The hæmatimeter, 16—A case of vaginal impalement, ib.—On the physiological action of alcohol, 54, 172—Peculiar skin disease, 244—Anchylosis of both elbow-joints, 245—On officinal dosages, with some remarks on homœopathic tinctures, ib.—Subcutaneous surgery, 427—Comparative results of lithotomy and lithotrity, 465—On some manifestations of syphilis and their treatment, 540—Pelvic hæmatocele, 638

OBSTETRICAL SOCIETY.—Infantile laryngeal cyst, 93—A fleshy mole, ib.—Extra-uterine fibroid, ib.—Malignant tumour of the omentum, 94—New chloroform inhaler, 245—Fibroid tumour of the uterus, ib.—Extra-uterine fœtation, ib.—Double or dicotyledonous placenta, ib.—Discussion upon the note on the post-mortem diagnosis of a nulliparous uterus, ib.—Report on certain causes of death in ewes during and after parturition, with notes on the "navel-ill" in lambs, 498—Midwifery at the Royal College of Surgeons, 606—Remarkable development of an infant, ib.—Complete obstruction of the bowel from intra-uterine peritonitis, ib.—Extra-uterine fœtation, ib.—On the mechanical action of pessaries, 639—Flexible vertebrated uterine sound, 776—Caries of the pelvic bones following delivery, ib.—Statistics of midwifery in general practice, 777

PATHOLOGICAL SOCIETY.—Hæmorrhagic periostitis, 14—Fatty tumour of the spinal cord, 15—Enlargement of the thyroid, ib.—Epithelioma of the chest and toe, ib.—An embolic infarct in heart muscle, 16—Impacted fracture of radius, 52—Rheumatic gout in the hands, ib.—Cardiac aneurism, ib.—Debate on movable kidney, 53—Sporadic cretinism, ib.—Tumours of the thigh and sciatic nerve, ib.—Cancer of both breasts and ovaries, 54—False teeth swallowed during sleep, 130—Dysmenorrhœal membrane, ib.—Anomalous blood-cyst, ib.—Stenosis of the mitral and tricuspid valves of the heart, ib.—Invasion of the lymphatics of the lung by pleurisy, 131—Debate upon the pathology of syphilis, 212, 281, 389, 462—Dermoid ovarian cyst, 533—Disease of the larynx, with pressure on the right inferior laryngeal nerve, ib.—Occlusion of the superior vena cava, ib.—Congenital absence of the inferior vena cava, ib.—Thrombosis of the superior mesenteric vein, 534—The debate on syphilis: Mr. Hutchinson's reply, ib.—Contraction of the small intestine, due to peritoneal adhesions, 604—Injury to the head with chronic hydrocephalus, ib.—Disease of the intervertebral substance, with psoas abscesses, 605—Obturator hernia, ib.—A bladder eleven years after lithotomy, ib.—Histology of leprosy, 671—Heart with a double mitral valve, ib.—Malformed heart, ib.—Multiple ulcer of the stomach, ib.—Innominate aneurism, ib.—Lardaceous disease, ib.—Dissecting varix of the femoral vein, 672—Larynx from a case of croup, ib.—Cirrhosis of the liver in a child, 740—Disease of the aorta, ib.—Sarcoma of the sclerotic, ib.—Tumour of the scalp, ib.—Lymphadenoma, ib. Tuberculosis of the spleen, ib.—Sclerosis of the posterior columns of the spinal cord, ib.—Cerebral aneurism, ib.—Congenital heart disease, ib.—Tumour of the right fibula, 741

ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—On pathological absorption spectra, 92—On the minute anatomy of two breasts the areolæ of which had been the seat of long-standing eczema, ib.—On the etiology of skin disease, 93—Sphacelus of the thyroid gland, 243—On the bouton de Biskra, ib.—Intermittent hæmorrhage apparently due to malarial influence, 313—On the estimation of albumen in urine by a new method adapted for clinical use, ib.—Annual general meeting, 388—On some effects of lung elasticity in health and disease, 424—On some of the histological changes found in cancer of the skin or epithelioma, 496—On the development of spindle-cells in nested sarcomas, 603—Lichen ruber, 604—A case of intermitting hydronephrosis, 637—New apparatus for producing local anæsthesia, 638—A case of congenital hydronephrosis, 708—On athetosis and post-hemiplegic disorders of movement, 709—Lead-line on the gums, ib.—Ingravescent apoplexy, a contribution to the localisation of cerebral lesion, 886—On the causation of the water-hammer pulse, and its transformation in different arteries, as illustrated by the graphic method, 887—Observations on buxus sempervirens, with special reference to the true nature of tetanus, 921

Medical testimonials, 157

——— women, 107, 142, 397, and the College of Surgeons, 99

Medicine in relation to the civil administration of the State, 829

Medicines, private and patent, 437

Menière's disease, 350

Meningo-myelitis, cases of, 168

Menstruation, 179

Merchant Shipping Act, 720

Mesenteric vein, thrombosis of the superior, 533

Metrical measures in medicine, 267

Metropolitan Asylums Board hospitals, the administration of, 148

——— sanitary authorities and mortality returns, 546

Micro-spectroscope, an improved method of applying the, for the detection of blood-stains, 26

Middlesex Hospital, 442; the ophthalmic surgeoncy of the, 146; reports of, 260

Middleton, Dr. J., obstructive suppression of urine as a consequence of renal calculus, 458

Midwifery certificates, a separate register for, 875

——— engagements, 910

——— practice, an anomaly in, 117; statistics of, 777

Midwives, education and registration of, 394; abroad, 369

Midwives' midwifery, 591

Military midwives, 37

Militia surgeons, 222, 302, 338

Milk, in Health and Disease (review), 55; the effect of cold on, 403; absorptive power of, 516; disease spread by, 644; the standard purity of, 679, 759; of cows with foot-and-mouth disease, 78

Milk-can, the urban and suburban, 615

Millport deaths, the, 935

Milne's Manual of Materia Medica (review), 18

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ADELAIDE HOSPITAL, DUBLIN.—Rhinoplasty in a syphilitic subject, 707

BIRMINGHAM AND MIDLAND EYE HOSPITAL.—Double acute glaucoma, 670

BIRMINGHAM AND MIDLAND HOSPITAL FOR WOMEN.—Case of hæmatokolpos; operation; recovery, 347—Hydatid tumour of the kidney; tapping followed by complete cure, ib.

BIRMINGHAM GENERAL HOSPITAL.—Case of perforating ulcer of the bladder; autopsy; remarks, 210—Cerebro-spinal fever; recovery, 850

BIRMINGHAM QUEEN'S HOSPITAL.—Ovarian tumour; tapping; inflammation of the cyst; ovariotomy; rapid recovery, 129

BRADFORD FEVER HOSPITAL.—Case of purpura hæmorrhagica, 776

BRADFORD INFIRMARY.—Hæmatemesis, 91—Carcinoma of the cauda equina, 348

BRISTOL GENERAL HOSPITAL.—Paracentesis pericardii; recovery, 50

CARDIFF INFIRMARY.—Unreduced dislocation of the head of the humerus of one month's standing; question of fracture, 211—Epithelioma at angle of lower jaw, 601

DERBYSHIRE GENERAL INFIRMARY.—Two cases of traumatic tetanus, 567

DEVON AND EXETER HOSPITAL.—Severe dyspnœa; tracheotomy; employment of a long india-rubber tube; recovery, 171

DORSET COUNTY HOSPITAL.—Perforating wound of the eye; removal of a piece of flint stone from the posterior chamber, 280—Necrosis of the entire thickness of the femur; successful removal, 387

EDINBURGH ROYAL INFIRMARY.—Cases illustrative of the extraordinary powers of recovery from severe injuries exhibited by young healthy patients, 129—Case of acute necrosis of the tibia, in which the diseased shaft of the bone was removed by resection, leaving the periosteum; reproduction of shaft, 357—Acute necrosis of shaft of tibia; resection and removal of diseased shaft, leaving the periosteum; cure, ib.—Case of excision of tongue for cancer; cured, 738

EDINBURGH ROYAL HOSPITAL FOR SICK CHILDREN.—Case of traumatic tetanus, following injury to the knee; amputation through upper part of thigh; recovery, 602

GALWAY COUNTY INFIRMARY.—Case of impaction of a file in the vertebral column, 461

GUY'S HOSPITAL.—Acute pneumonia of the apex of the right lung; physical signs simulating excavation; recovery, 279—Scarlatinal dropsy; convulsions; venesection; recovery, 422—A series of five cases of ovariotomy, 600

HARTLEPOOL HOSPITAL.—Case of perforating wound of abdomen, with protrusion and wound of intestines; recovery, 243

HITCHIN INFIRMARY.—Tuberculosis; effusion into third and fourth ventricles; cerebro-spinal meningitis, 813

HOSPITAL FOR THE EPILEPTIC AND PARALYSED.—On cases of epileptic seizures with an auditory warning, 386

KING'S COLLEGE HOSPITAL.—Intussusception of the large intestine; abdominal section; death, 12—Disease of the elbow-joint; incision; excision; recovery, 495—Sarcoma of the palate; dyspnœa; continued delirium; laryngotomy; immediate relief, 586—Eczema hypertrophicum of leg; amputation; death, 636

LEICESTER INFIRMARY.—Record of cases of stone in the bladder treated by the median operation of lithotomy, 422

LIVERPOOL ROYAL INFIRMARY.—Wound of abdomen and protrusion of intestine; recovery, 242—Imperforate anus in a child thirty-three days old; operation; recovery, 312—Dislocation of the foot backwards, with fracture of the fibula; division of the tendo Achillis; recovery, 707

LIVERPOOL WORKHOUSE INFIRMARY.—Autopsy of a case of congenital malposition of the right kidney, 212

LONDON HOSPITAL.—Operations for cases of stricture, cleft palate, indolent ulcer and talipes equino-varus, 50—Separation of epiphysis of anterior inferior spinous process of ilium by muscular action, 668

MIDDLESEX HOSPITAL.—Cases of caries of the temporal bone; cerebellar abscess and facial paralysis, 241—Chronic ulcers of both legs; dry gangrene of both legs, gradual in right, sudden in left; autopsy, 310—Large strangulated congenital hernia; operation, followed by suppuration between the abdominal muscles; recovery, 460—Acute diffuse periostitis of the leg; rapid necrosis of the shaft of the tibia; removal of sequestrum of the diaphysis of the tibia; recovery, 601—Fibroid tumour of the uterus, causing difficult labour, and still-births at seven months, in five successive gestations; induction of labour at three months in three subsequent pregnancies, 668—Case of cerebro-spinal meningitis; death, 849

MOORFIELDS OPHTHALMIC HOSPITAL.—Ophthalmic cases, 14

NEWARK HOSPITAL.—Symptoms observed in a case of poisoning by liquor ammoniæ, 280

NORTH-EASTERN HOSPITAL FOR CHILDREN.—Probable reduction of intussusception by copious injection with the body inverted, 13

RADCLIFFE INFIRMARY, OXFORD.—Two cases of cerebro-spinal meningitis occurring in previously healthy subjects; a third case, doubtful, 812

ROYAL FREE HOSPITAL.—Acute urethritis; retention of urine; supra-pubic aspiration; recovery, 171—Stone in the bladder in a young child; lateral lithotomy; recovery, 532

ST. BARTHOLOMEW'S HOSPITAL.—A very unusual congenital deformity, 13—Hæmorrhage into cerebellum and other nervous lesions in a case of heart disease, 494

ST. LOUIS HÔPITAL, PARIS.—Small sarcoma of the orbit; exophthalmia; enucleation of the eyeball; erysipelas; death; autopsy, 51—Hernia into the iliac fossa accompanying an old inguinal hernia; autopsy, 172—Sarcoma of the abdomen; recovery, 496—Cystic sarcoma of the breast; operation; recovery, 739

ST. MARY'S HOSPITAL.—Notes on some surgical cases, 209—Retroversion of the gravid uterus; retention of urine; recovery, 460—Treatment of rheumatic fever by salicylic acid, 530—Rheumatic fever treated by salicylic acid, 737

ST. THOMAS'S HOSPITAL.—Congenital cleft palate treated by the application of strong nitric acid, and without operation, 669—Case of ilio-femoral aneurism treated successfully by ligature (with carbolised catgut) of the external iliac artery, 775

SEAMEN'S HOSPITAL, GREENWICH.—Aortic aneurism, giving rise to general dropsy; autopsy, 91—A penetrating wound extending from back of thigh through ischio-rectal fossa into the abdominal cavity; perforation of ileum, 311—Fracture of the neck of the femur in attempted reduction of an old dorsal dislocation, 422

SOUTH DEVON AND EAST CORNWALL HOSPITAL, PLYMOUTH.—Fracture of the base of the skull; facial paralysis; recovery, 706

STANLEY HOSPITAL, LIVERPOOL.—Old omentum hernia; strangulation of colon; sac acquired, 51

SUNDERLAND INFIRMARY.—Case of hydatids of the lung and gall-bladder, 532

TEMPORAIRE HÔPITAL, PARIS.—Complete obliteration of the superior extremity of the pharynx; operation; application of an apparatus in order to maintain an opening, 424

TOXTETH-PARK WORKHOUSE INFIRMARY, LIVERPOOL.—Foreign body in orbit, 423

UNIVERSITY COLLEGE HOSPITAL.—Three cases of extensive epithelioma involving the lower jaw; removal by section of the bone and the galvanic écraseur, 90, 128, 170—Two cases of belladonna poisoning, treated by jaborandi; recovery, 346—Two cases of stone in the bladder, 635—Remarkable case of pistol-shot wounds of head and chest, 705—Case of intestinal obstruction; gastrotomy; death, 773—Case of intestinal obstruction; operation; recovery, 848

WEST BROMWICH HOSPITAL.—Femoral aneurism; ligature of superficial femoral artery; rupture; gangrene and amputation; death, 669

WEST LONDON HOSPITAL.—Stricture of the urethra and scrotal fistula of six years' duration; internal urethrotomy; closure of fistula

four days after operation, 279—Cases illustrating the treatment of acute orchitis by puncture, 495—Internal urethrotomy; retention of the catheter after operation, followed by abscess and fistula; ultimate good result, 568—Case of hæmatoma of the dura mater, 738
